LSS had only the answer, we used to have to go and look for the original paper that the answer was responding to - Could be helpful to have an exam question database, something where there isn't potential for copying - Convenors will say look at tutorial questions 	<ul style="list-style-type: none"> - Some exec members to go to opening - Like any LSS posts that come up- be engaged! - See if your role is outdated in the constitution - Should certain portfolios have more directors - This with a view to the OGM if people think things need to be updated - Any thoughts on exam database being taken down?

Portfolio report - Afif (finance)		
Portfolio report (Bri)	<ul style="list-style-type: none"> - In conversation with convenors to organise problem solving workshops at end of term (around Wk12) <ul style="list-style-type: none"> - Run by the convenor - Almost like a lecture - Take you through a question and how they would approach it - Uploaded online - Responses about extra tutorials have been 	<ul style="list-style-type: none"> - How do people feel about problem solving workshops and pre-exam tutes? - If they are already accommodating problem solving

	<p>pretty negative so far</p> <ul style="list-style-type: none">- Still a few to review,- CoL has given a lot of pushback in recent years about running pre-exam tutes- Problem solving workshops really useful- Good to get a young, more recent perspective than perspective of the convenor- Nice that they're more exam-oriented- Convenors don't really go over how to organise your notes- In the past, when it was more content-heavy, it was an issue (academic misconduct)- so now moved to more skills-based	<p>workshops, maybe it's fair that they aren't as interested in pre-exam tutes</p>
